

# NEW YORK HERALD, FRIDAY, APRIL 26, 1861.

camped in the squares of Warsaw. The public buildings were also occupied by military. All shops, workshops and offices were closed. Caravans of people were scattered over the streets, but few fortifications stand still. National Guard, whose bunting was no longer to be seen. No newspaper was published.

Amid the persons killed were many young children, who had been shot in their beds. Children were scattered about the field, some dead, while several hundred were wounded. The bodies of the victims were buried within the fortifications.

The municipality of Warsaw was dismantled. Gortzberg, who had been procuring arms, shot the people with his own hands at the crowd, and thereby caused the death of two soldiers and wounded ten others.

## Portugal.

It is stated that the Portuguese government has authorized the cultivation of cotton in their African possessions.

## Denmark.

The final sitting of the Holstein Estates took place on the 11th inst. In his speech he observed that the name of the Danish prince was such as not to be acceptable to the Estates. The Royal Commissioner refused to recognize the objections offered by the Estates against the provisiorum, and expressed his regret at the result of the discussion.

## India, China and Australia.

These news—already anticipated by telegraph—had reached England, and the American portion is received post.

There is no news of moment additional to that received by telegraph.

The expedition up the Yangtze was accompanied by eight British war vessels, and by a depatment from the Chinese Court of Commerce.

The steamer "Canton" continued exceedingly dull. The gold dust was well maintained. An important new gold field had been discovered.

## THE VERY LATEST.

[TELEGRAPH TO QUEENSTOWN.]

TURK, April 15, 1861.

In to-day's sitting of the Chamber of Deputies the President read a letter from Garibaldi, in which the latter declares that in his reply to the deputation from the Workmen's Association of Milan he had made intention of offending the King or Parliament; also that his devotion to the king was too well known, and that consequently his conscience would not allow him to descend to justify himself against the charge of offending his Majesty. In the same letter he said also that his acts in favor of his country were too notorious to allow it to be supposed that he wished to insult it. He added that the manner in which the Southern army had been treated had filled his soul with disdain, and concluded by proposing a project of law for a vast national armament. No sign of either approbation or disapprobation marked the reading of this letter.

APRIL 14, 1861.

The Official Gazette of Turin publishes a decree ordering the formation of a volunteer corps to comprise three divisions, in which the Garibaldian officers will hold rank.

## DECENTRALIZATION IN FRANCE.

PARIS, April 14, 1861.

The Minister of to-day publishes a report from M. D'Urpuys, Minister of the Interior, to the Emperor, which is followed by an imperial decree ordering an administrative decentralization. Henceforth the prefects and sub-prefects are to decide on certain departamental and communal affairs and on various other subjects which until now were decided by the different ministers.

## Marks.

RICHARDSON, SPENCE & CO.'S CIRCULAR.

LIVERPOOL, April 13, 1861.

Yesterday the Bank of England further reduced the rate of interest to five per cent.

COTTON.—The demand was animated early in the week, and prices of American, ranging from middling upwards, advanced to a marked extent, especially New England, where the market has scarcely been so firm. Sea Island without change. Surat in good request at full prices.

In Manchester there is a better feeling, without much business or any quotable advances in rates.

The quotations are: New Orleans, 7½d. per lb.; Mobile, 6½d.; Upson, 5d.

BROWNS.—The weather throughout the week has been dry and dry, all that could be desired for the country, and the trade has ruled dull, the greater ease of an money market having failed to impress the market.

Interest rates were at a limited level, and those who had accepted less money to effect sales of quantity. Indian corn dull at a decline of 60 per cent.

At to-day's market very little business was done, and buyers took the advantage of a price.

Flour.—The market shows a slow fall of sale. Indian corn in very small request; mixed and yellow again easier, and white 6d. to 1s. per quarter cheaper.

We quote: West, 1s. 6d.; Middle, 1s. 10d.; Low West, 1s. 12d.; Southern, 1s. 6d. to 1s. 10d.; New England, 1s. 12d.; Boston, 1s. 10d.; New York, 1s. 12d.; Philadelphia, 2s. 6d. to 2s. extra, 2s. 6d. to 3s. 6d.; Extra No. 2, 2s. 6d. to 3s. 6d.; choice lots, 3s. to 3s. 6d.; Extra State, 3s. to 3s. 6d.; for 100 lbs., Indian Corn—Mixed, 1s. 6d.; White, 1s. 6d.; yellow, 1s. 7d.; white, 1s. 6d. per 100 lbs.

BROWNS.—With some speculative inquiry the sales have been large, exceeding for the week 3,000 pieces of all kinds, principally old, at 4s.; to 6s.; new, prime news, 8s.; to 8s. 6d.; now India, 8s.; to 9s. 6d. per ton.

Fibre, firm, about 500 bbls., having been sold at 6s. 6d. for "Craggs"; new, and 6s. to 6s. 6d. for old.

BACON continued quiet; the consumptive demand is limited, but, except in occasional instances, holders do not give way in price.

Lard has continued in good inquiry, but closes quiet, buyers having supplied themselves largely by their late purchases. We quote American at 5s. for good rendering fat, to 6s. 6d. for choice.

Tallow freely offered and again lower; Butchers' Association we quote at 6s. per cwt. In London, also, prices have declined.

QUICKBROWN BANK.—In Philadelphia nothing doing; 1,000 bales Baltimore sold at 6s. to 7s. 3d.

ROSES—Common quiet, at 6s. 6d. per cwt.

WHEAT—The market showed a perceptible inquiry, chiefly for export, at 4s. 6d. for new, and 5s. 6d. for old, as in quality, the sales reaching about 1,500 bales. Of timothy 60 bales sold at 3s. 6d. per cwt., and 100 bales at 3s. 6d.

BARLEY—The weather throughout the week has been fine and dry, all that could be desired for the country, and the trade has ruled dull, the greater ease of an money market having failed to impress the market.

Interest rates were at a limited level, and those who had accepted less money to effect sales of quantity. Indian corn dull at a decline of 60 per cent.

At to-day's market very little business was done, and buyers took the advantage of a price.
